

3 Step Guide

FOR GREAT FAMILY PHOTOS

Get Ready for the Best Session Ever

1

KEEP IT FUN

A photography session is family time. Keep it fun and relax. Laugh and be yourselves, this will bring out everyone's natural smiles and you will get amazing photos to cherish for a life time.

(I always have a few tricks up my sleeve just in case we need to add a little bit of fun to the mix!)

2

MAKE IT A DISCIPLINE FREE ZONE

This is by far the best tip I can share. Let your kids be kids. Don't try and make your kids "be good" or discipline them. Just play and have fun. Your kids love you and want to play with you. If the entire session is focused on play, kids will have fun and we will get wonderful, natural smiles.

(I'm a master at helping families have fun and capturing those images.)

3

COORDINATE; DON'T MATCH

Choosing what your family will wear is very important but you don't have to overthink it. Focus on coordinating attire instead of matching. When in doubt, your photographer can help you decide.

(When you book your session with me, I take the time to get to know you and your family and help you to realize your desired outcome.)
